4. If the additional \$1,000,000 is not made available, depot replenishment of some items must be deferred until FY-64 and/or some requisitions for items not normally carried in depot stocks cannot be filled during FY-63.

5. A preliminary survey revealed that the following items are most susceptible to deferment of replenishment of depot stocks in case of shortage of stock funds in FY-63:

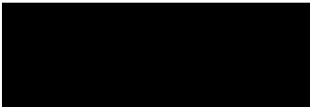

Repetitive demand items (Teletype paper, stationery, printing and medical supplies)	\$300,000
Communications stock replenishment (AC-2 antenna couplers)	175,000
TSD stock replenishment (Photo and audio technical equipment)	<u>100,000</u>
	\$575,000

6. Although it cannot be predicted which items in significant quantities will be requisitioned during the remainder of the year, the
